**To Whomsoever It May Concern**

I am a hard-working and determined professional seeking an opportunity to succeed in a dynamic company such as yours. I am confident that my knowledge, ability and experience allow me to deliver successful results for any company in a range of software development positions.

My work history has provided me a variety of skills which allow me to relate to all levels of software development, to a variety of positions, and work successfully with a diversity of personalities, customers, and end-users.

I am a hands-on Software Developer with over 15 years of diverse experience in software design and development. Throughout my career I have developed console, server, client, database, and web applications using various programming and scripting languages like Python, Java, React JS, AngularJS, PL/SQL, Perl, Shell scripting, C++ and C.

My current focus is developing **automation frameworks and tools** using **Python** to enable QA and development teams across Affirmed Networks.

I am convinced that I can be an asset to your company, and I look forward to hearing from you soon.

The enclosed resume expands on my qualifications and experience.

Thank you for your time and consideration.

Sincerely,  
Ishwarachandra Gowtham
